A proven strategy for church renewal, church planting, discipleship, and evangelism

REBOOT means...To start again with the original code; to re-load the foundational operating system

The church's "original code" and foundational operating system was Great Commission living empowered by Great Commandment Love.

This training will equip you to:

- Lead your church in Great Commandment/Great Commission living.
- Live out a Spirit-empowered faith. Complete your personal assessment as a Spirit-empowered disciple and then see transformation in your own love of God, the Word, people, and God's mission for your life.
- Rethink ministry—using a concentric circle model of Great Commandment/Great Commission Ministry (GC2) focusing on loving the Lord, near ones, His church, and His mission.

As you learn to add transformative encounters with Jesus, experiences of Scripture, and engagement in true fellowship to your ministry, you will:

- Experience members being motivated by gratitude ; moving from "got to" to "get to".
- Experience the reality of Ephesians 4:12 as "saints truly serve" in a Servant Church.
- Create a community of faith where "real people can be real" as they mature in a Spirit-Empowered faith.
- Develop Disciples with a prayer-care-share lifestyle , who make disciples , who make disciples.
