

Great Commandment Principle Kit

How relevant is the modern day church to hurting and needy people? How effective are today's followers of Jesus in meeting the real needs of people?

To a vast number of the unchurched, we are answering questions they are not asking, we are providing solutions to problems they don't face. We are often irrelevant to the people we need to reach the most. They leave our gatherings feeling just as alone as when they came.

The Great Commandment Principle unpacks a simple but profound way of relating to God and others that will restore great relevance to the church while deepening your personal relationships with others.

“Most of us have read too many books, attended too many meetings and gone through too many courses only to conclude: we're still unchanged, know we are unchanged and the people in our lives can see that we are unchanged. It is time to trust God for something different...a movement of Spirit-empowered transformation.”

-Dr. David Ferguson, The Great Commandment Network
